

## **\$21.3 Million in Class Action Settlements Approved for Distribution for Lithium Ion Battery Price-Fixing**

**Toronto, ON, August 17, 2021**—Siskinds LLP, Sotos LLP, Camp Fiorante Matthews Mogerman and Belleau Lapointe, s.e.n.c.r.l. announced today court approval of a protocol for the distribution of settlement funds in the Canadian lithium-ion batteries (LIBs) price-fixing class action. The class action alleges price-fixing in the market for LIBs and certain products containing LIBs (LIB Products). The class action was commenced in 2013.

Settlements totalling \$21.3 million have been reached with seven defendant groups. The settled defendants do not admit any wrongdoing or liability. The Ontario and Québec courts approved the settlements and a protocol for distribution of settlement funds.

“The settlements represent significant recovery for Canadian consumers and businesses,” said Linda J. Visser of Siskinds LLP in London. “We encourage affected Canadians to apply for settlement benefits to recover money they should never have been charged in the first place. We have designed a claims process that is easy to use—particularly for consumers.”

Anyone who purchased LIB or LIB Products in Canada between January 1, 2000 and January 1, 2012 is eligible to claim settlement benefits. Individuals can claim for undocumented purchases. Subject to further court order, undocumented claims will be paid \$20. Claims can be filed online at <https://batteriessettlement.ca/> on or before December 17, 2021. More information about the settlements, the distribution of settlement funds and the claims process can be found online at <https://batteriessettlement.ca/> or by calling the claims administrator at 1-866-726-4080.
